

STEP 1 For me, the Earth is...
(group work, in class) *pictures in the folder

STEP 2 movie story map (group work, in class) *pictures in the folder

STEP 3 scenography – what will I need for my scene
(group work, in class) *pictures and videos in the folder

I'm sure you already know a lot, but I'm always glad when you think about me!

I am the only known planet on which there are living things; humans, plants and animals. I'm the third planet from the sun. If I was closer to the sun, you'd find it too hot, and if I was further away, it would be too cold to live. My surface is mostly covered with water and the moon helps me a lot to get out of all that water. You already know I have seven continents, active volcanoes, mountains, seas and oceans.

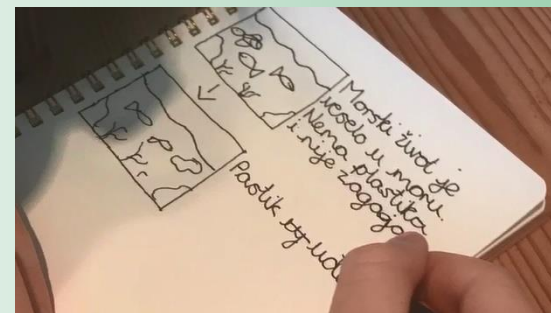

Sigurna sam da znate već puno toga, ali uvijek mi je drago kad mislite na mene!

Tristan: Jedina sam poznata planeta na kojoj ima živih bića: ljudi, biljaka i životinja. Treća sam planeta od Sunca. Anna Mia: Da se nalazim bliže Suncu, bilo bi vam prevruće, a da sam udaljenija, bilo bi prehladno za život. Moja površina je uglavnom prekrivena vodom i Mjesec mi puno pomaže da sa svom tom vodom izađem na kraj. Marko: Već znate da imam 7 kontinenata, aktivne vulkane, planine, mora i oceane.

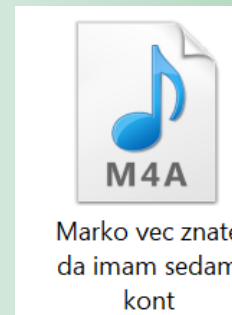

STEP 4 narration for my scene (zoom)

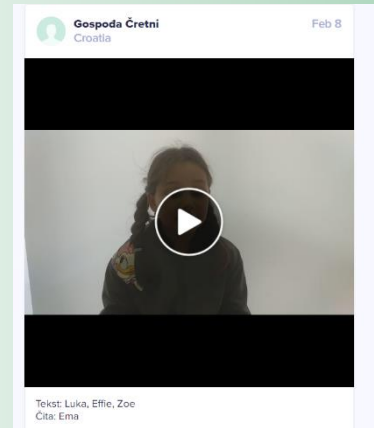

...and use stop motion to bring their scene to life

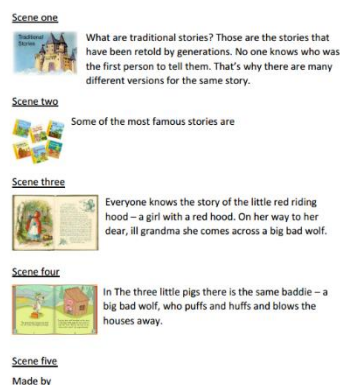

STEP 7 meanwhile, a group of students create scenes for the movie... *video in the folder

STEP 6 a group of students use videos to practice reading in Croatia *voice clips in the folder

STEP 5 collaboration with school in Croatia (zoom, Class Dojo)

STEP 8 We are all doing the same task - we investigated our video editing skills by creating a short movie... we can add different media, add music, voiceover, different transitions to our slides/photos and export a video *videos in the folder

Today we will make a healthy oatmeal breakfast. Danas ćemo pripremiti zdravi doručak – zobenu kasu.

You will need a cup of oats, a cup of water, a cup of milk and some sugar. Trebat ćeš salicu zobene kase, salicu vode, salicu mlijeka i malo šećera.

Put water on the stove. Stavi vodu da na srednjak. Leave to boil. Pricekaj dok provrije.

Pour in the oats and stir gently. Uspij zobenu kasu i nježno miješaj.

When it thickens, pour in the milk and stir for another couple of minutes. Kada postane gusto, uspi mlijeko i miješaj još nekoliko minuta.

Lastly, add sugar and mix well. Napokon, dodaj šećer i dobro promiješaj.

Serve it in a bowl. Posluži u zdjelici.

Enjoy your meal. Dobar tek.

STEP 9 we will continue to develop our editing skills. We will use a short instructional video – how to make a porridge – and add narration and subtitles. Timing has to be perfect!

STEP 10 A group of students - editors will be given a finished video of a scene, narration in Croatian and transcript in English. *one scene finished, video in the folder

Some editors will be in charge of the title page.

The producer will put all scenes together.

STEP 11 meanwhile, a group of students will practice singing and playing traditional Croatian song/poem
